SHORT PRESENTATION

unpruuf Compliance

Your own internal reporting channel for Romanian organisations with 50 or more employees: on your own server, without collecting the identity of the person who reports.

Tested · not independently audited

Your own server

Your organisation runs the server. NexonAI runs no servers and has no access.

No reporter identities

No account, no name, no phone number, no e-mail address.

Ready in one week

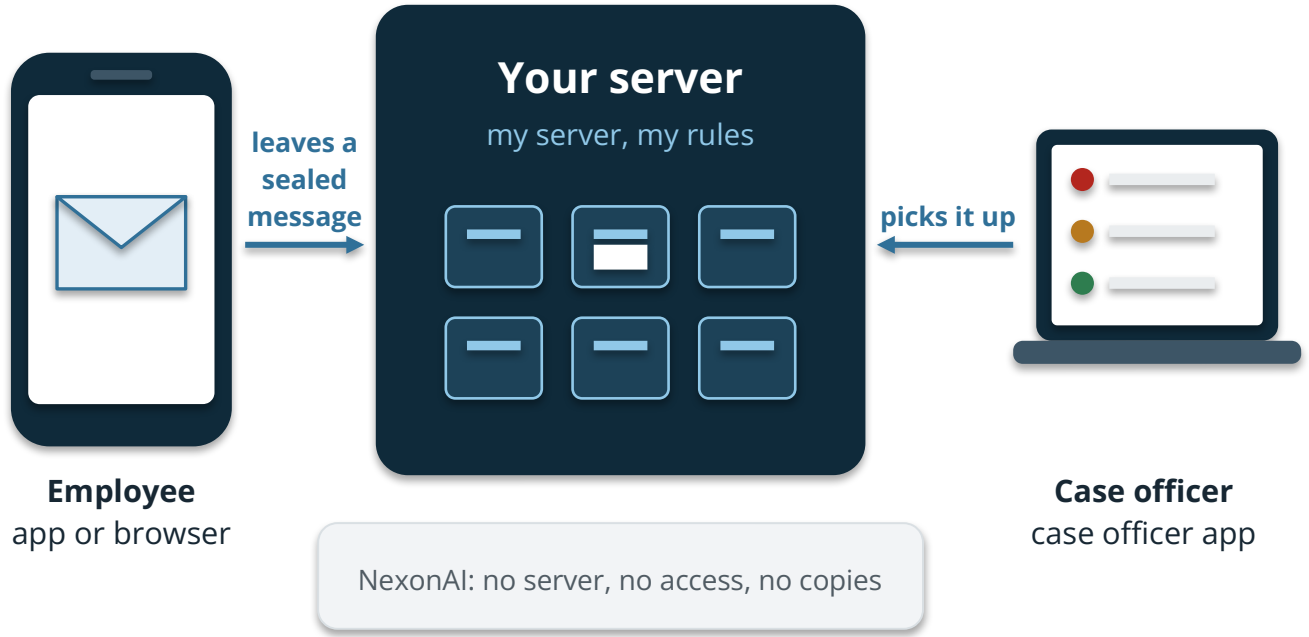

With training for your case officers and an evidence pack for your DPO.

HOW UNPRUUF WORKS

Two parts: an app and your own server.

Prerequisite: your organisation runs its own server. NexonAI runs no servers and has no access.

SCHEMATIC

- **No identities**
  No accounts, no phone numbers, no user directory.
- **Nobody writes directly**
  You leave a sealed message on your own server. Your contact picks it up there. Replies take the same route.
- **My server, my rules**
  The server belongs to your organisation. Nobody in the middle.
- **Nothing lies around**
  What is not picked up is gone after 24 hours at most. A passage, not a storage.

Reporting in the browser does not use Tor: your server sees the IP address. The first screen says so. The app does not have this limit.

WHAT YOUR ORGANISATION GETS

A report, from the first message to closing.

Five steps. Your case officers always see the next deadline.

1 Report

An employee reports in the app or in the browser, from the QR code on the workplace notice. No name needed.

2 Case code

The reporter receives a random case code and follows the case with it.

3 Acknowledgement

within 7 days

The case officer confirms receipt of the report.

4 Dialogue

The case officer asks questions. The reporter answers without giving contact details.

5 Feedback, close

within 3 months

The case officer reports back on the measures taken and closes the case.

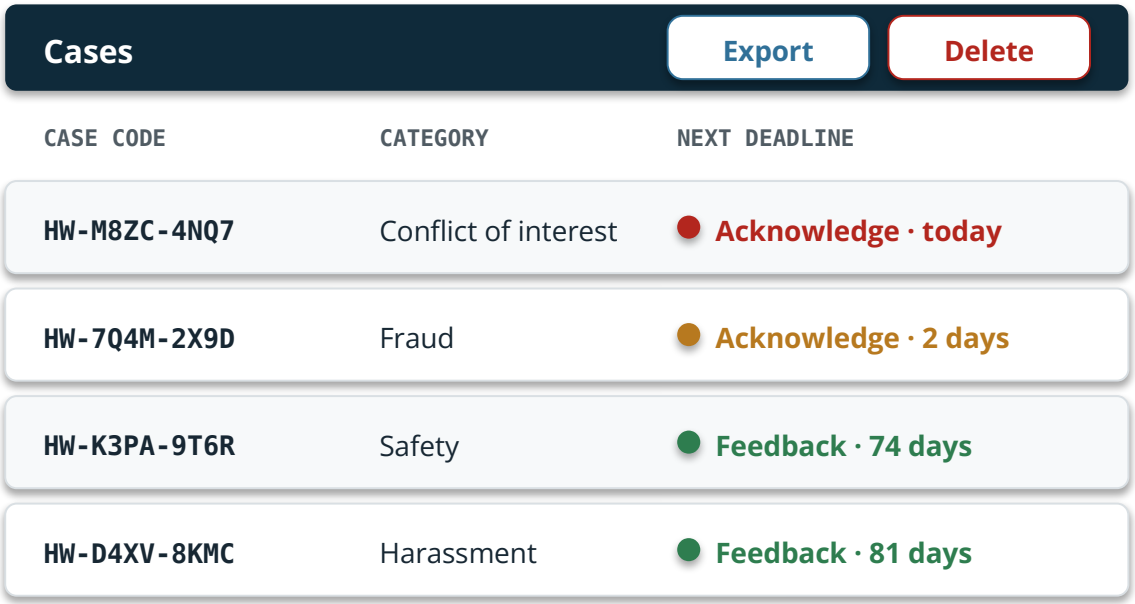

Day 0 — 7 days — 3 months

Reporting page and QR code in Romanian and English.

CASE HANDLING AND DEADLINES

Every case in one overview.

Illustration

Deadlines at a glance

Open cases sorted by the next deadline, marked red, amber or green.

Delete a case

The case officer types the case code to confirm. A deletion log keeps only the case code and the time, no content.

Export a case

A printable file in Romanian or English with dates, deadlines, status changes and the whole conversation.

Evidence pack for your DPO

Technical overview, technical and organisational measures, impact assessment template, data processing agreement template.

The architecture supports data minimisation, storage limitation and confidentiality (GDPR Art. 5, 25, 32). Your organisation is the controller; your DPO or lawyer confirms.

LAW 361/2022 IN BRIEF

What the law asks of your organisation.

Romania transposed Directive (EU) 2019/1937 with Law 361/2022.

WHO

50+ employees

Private employers with 50 or more employees need an internal reporting channel. For 50–249 employees, this applies since 17.12.2023.

DEADLINES

7 days · 3 months

Acknowledge receipt within 7 days. Give feedback to the reporter within 3 months.

REGISTER

5 years

Reports are kept in a register for 5 years.

AUTHORITY

ANI

The National Integrity Agency is the external reporting channel and the sanctioning authority.

The law does not require a certification of the reporting channel.

Source: Legea 361/2022, art. 7, 9, 10, 36 · checked 30.10.2026 · not legal advice, your lawyer confirms

START IN ONE WEEK

unpruuf Compliance Start

Everything you need to run your own channel, ready in one week.
